2 February 1973

MEMORANDUM FOR: Information Processing Coordinators

SUBJECT : U.S. v. IBM
Inspection of CIA Documents

1. As you know the representatives of IBM will be at the Ames Building on Tuesday, 6 February 1973, to inspect unclassified documents including those containing proprietary information being produced by the Agency in response to court order. When this inspection was originally ordered, it was impossible for the Agency to produce documents stored at the Records Center by the then required date of 15 April 1972 and accordingly, the Justice Department agreed that they need not be produced at that time. However, since then the Court has issued an Order Supplementing Pre-Trial Order No. 2 requiring production of stored documents. IBM and the Department of Justice understand that stored documents will not be available for inspection on 6 February, but I have advised the Department of Justice that we will institute a search and produce unclassified stored documents for inspection at a later date.

2. This is to request IPCs to institute a search for such documents back through 1961, and to segregate them in categories as unclassified, unclassified proprietary and classified. Security Officer/Office of Logistics, will coordinate and provide facilities for inspection. Please

STATINTL

contact him to make arrangements for his receipt of the documents and please advise me as soon as possible of the time you expect your search to take. When you have completed segregation of the documents, please advise me immediately of the number of linear inches or feet of unclassified and unclassified proprietary which will be available for inspection. STATINTL

Assistant General Counsel

Remarks:

Inspection took place 6 February 1973. IBM copied about 11 documents. I have asked [redacted] Security Officer/Office of Logistics, to make copies of these, and to return all documents to the IPCs.

If IBM has any questions, they are required to submit them through the Department of Justice.

FOLD HERE TO RETURN TO SENDER
